

Roland SH-01a “Colors” Sound Pack Installation Guide

Installation

Before transferring any Sound Sets to your Synth, please make a backup of your sounds!

Please follow these steps to transfer the Desert Sound Pack to your SH-01a.

To mount the SH-01A to your desktop follow this procedure

1. Holding down [MENU] button, power up the SH-01A
2. Connect your computer to the SH-01A USB port via USB cable
3. Open the SH-01A drive which has mounted to your desktop.

To transfer patches from your computer into the SH-01a

1. Follow the above procedure for mounting the SH-01A
2. Copy the patches you'd like to check out into the “RESTORE” folder on the SH-01A drive.
3. When copying is completed, eject the SH-01A drive.
4. IMPORTANT - Before power cycling the module press the [MENU] button

5. Once the lights stop blinking you may power cycle the SH-01A and disconnect the USB cable and you're done.

The last three steps are crucial in order to get this sound pack working properly.

Trouble Shooting:

1. Sometimes, you have to create a new folder called „PATCH“. For whatever reason it doesn't show up where it should be. After creating it, place the patches inside and drag the whole folder into the RESTORE folder on the SH01a.
2. Occasionally, the new patches don't install if there are already any files in the BACKUP directory. So it might help to delete these after backing them up. If the new patches don't appear on your SH-01a after you've done this, try deleting these before trying again.
3. If this still doesn't work try to eliminate any USB Hubs in between or disconnect other USB devices that are connected.
