

SEQUENTIAL[®] TRIGON-6 SOLSTICE

Installation guide:

Sequential Trigon-6 Solstice Sound Pack

Before transferring sound sets to your synth, please back up your patches first! There are 5 banks included (Bank_0...Bank_4). All include the same content, but you can choose the user bank to which you want to transfer this sound pack.

—> If you're using the Soundtower TRIGON-6 Editor/Librarian, please use the file "Trigon-6_Solstice_Soundtower.t6_b"

To transfer this Sequential Trigon-6 sound pack, you'll need a computer, a stable USB or MIDI connection, and a SysEx librarian. You can use a MIDI librarian application such as "SysEx Librarian" for Macintosh or "MIDI/OX" for Windows to transmit programs or banks into your Trigon-6.

A. To prepare the Trigon-6 to receive system exclusive messages:

1. Press the Globals button once.
2. Press program selector #8 (MIDI Sysex).
3. Use the Bank and Tens buttons to choose either USB or MIDI depending on your preferred method and connections. If you're using USB from your computer, choose "USB." If you're using a MIDI interface, choose "MIDI" (the display shows MIDI as "nid").
4. Press the Globals button twice to exit the Global menu.

B. Transferring the Presets via a SysEx-Librarian

1. Connect your Trigon-6 to a computer using a USB cable (or MIDI cables, if you are using a dedicated MIDI interface).

2. Open your Sysex librarian software and configure it to send SysEx messages to your Trigon-6 by selecting either "TRIGON USB" or the ports of your MIDI-Interface
3. In your SysEx librarian, open one of the files, depending on where you want the Solstice Sound Pack to be transferred. (User Bank 0 ... 4).
—> PLEASE NOTE! The next step will replace any existing programs in those same memory locations on the synth so be sure to make a backup first.
4. Transmit the program by hitting "play", "transfer" or "send sysex", depending on the librarian, you're using. The transfer starts and the programs will increment on the Trigon-6 as each program file is transferred to it.

Trouble Shooting

In case something went wrong, please:

- use a direct USB connection instead of a USB HUB
- try a different USB cable
