Installation guide: Melbourne Instruments Delia "Lotus" Sound Pack

Before transferring sound sets to your synth, please backup your patches!

1. On your computer, drag and drop the zip file "DELIA_BANK_LOTUS_BY_LIMBIC_BITS.zip" onto a USB drive. Connect the USB drive to your Delia and choose "Import Bank".
2. Choose the zip file "DELIA_BANK_LOTUS_BY_LIMBIC_BITS.zip" and press the NEXT soft-key.You will then be asked where to store the bank. The screen will display a list of all banks currently in Delia.
3. Choose the BANK where you want to store the imported Presets and press the NEXT soft-key again.You will then be asked if you want to Merge or Overwrite the presets in the bank.
   If you choose OVERWRITE, then Delia will write all of the Presets in the zip file to the bank in their number order. The Presets in the Bank will be overwritten and the Bank will be renamed to the name of the zip file. Note that if there are more Presets in the destination bank than in the zip file, the import will not delete the extra Presets in the bank.
   For example if there are 100 Presets in the destination bank and only 50 in the zip file, Delia will overwrite the first 50 and the other 50 will still be there after import.

   If you choose MERGE then Delia will read all the Presets from the zip file, and add all new Presets into the destination bank, without affecting the Presets already in that bank. If there is a Preset in the Bank already with the same name, then it will skip (not import) the Preset. All new Presets will be written to the Bank, to fill all the empty locations. An empty location in the Bank is one that has a Preset called BASIC PRESET.
   NOTE: For a MERGE import, Delia will first check if there is enough free space in the destination Bank for the new patches.If there is not, it will tell you the import

cannot be done. In this case, choose a different bank, create a new one, or use OVERWRITE.

4. After import is complete, you will be asked if you want to Eject the USB flash drive. Choose EJECT and remove the drive, or choose BACK if you want to do something else with the drive eg import another bank of Presets.

Trouble Shooting:

• Try to use a different USB drive
• Make sure you have enough free disk space on your unit

License Conditions - Limbic Bits Sound Packs and Samples

Please read the following agreement before using these Sound Sets.
All Sounds and Samples herein are licensed, not sold to you (collectively, „Licensee"), by Limbic Bits. The original manufacturer of the sounds (collectively, "Licensor") will always remain the owner of the sounds. All rights not expressly granted herein are reserved exclusively by Licensor.
We may, at our discretion, make changes to these Conditions at any time. Any changes will be posted on this page. In some instances, we may send an email to registered users notifying them of a change to the Conditions. You should, however, check this page from time to time to take notice of any changes.

1. The Licensee may use the Sounds in combination with other sounds in music productions (which include soundtracks of films, video productions, radio/TV programs or commercials, computer games and multimedia presentations, library music), public performances, and other reasonable musical purposes within musical compositions.

2. The licensee may modify the Sounds and may use the Sounds for commercial purposes as part of a musical composition with other Sounds.

3. The Licensee MAY NOT use the Sounds in isolation within any competitive product that is sold, redistributed or relicensed to third parties. That includes i.e. sound effects, sampled sound libraries or loops based on our Presets or Sample Banks.

4. A right to use the sounds is granted only to the Licensee and is NOT transferable.

5. This license expressly forbids resale, rental, gift, relicensing or other distribution of the Sounds, either as they exist or any modification thereof. Samples or sampled Sounds based on our Presets may not be included, whether unmodified or as part of a derivative work, in any sample library or virtual instrument product. You are not allowed to sell, loan, rent, lease, assign, upload to or download from any server, or transfer all or any of the enclosed sounds to another user, or for use in any competitive product.

6. This license is granted for a single user only (and is given on a worldwide basis). The license is non-exclusive and is granted for the full period of copyright protection and sound samples. Opening or using this product constitutes your acceptance of these terms.

7. Licensor will not be responsible if the sounds does not fit the particular purpose of the Licensee.

Thank you for your agreement to and understanding of these Conditions which are designed to protect the artists and content creators so we can continue bringing you great sounds.
