

FUSION

Installation guide: Waldorf Iridium / Quantum “Fusion” Sound Pack

In order to transfer this sound pack, you'll need a computer, a microSD Card (or USB Drive) and your Waldorf Synth (well, obviously). Before transferring sound sets to your synth, please backup your patches first!

To install the Fusion Sound Pack, please follow these steps

1. Copy the whole folder “Limbic_Bits_Fusion” to an external USB Drive or microSD Card. Don't rename this folder or a sub folder as it may cause issues during the import.
2. Connect your storage medium to your Iridium (or Quantum)

Now, import the Sound Pack into your unit:

1. Make sure you're using the latest OS. You can find it here: <https://waldorfmusic.com/>
2. Switch on the synth and wait until it's ready
3. Open the “Load” Menu
4. Click on “Actions” and select “Import”
5. Select your micro SD Card or USB Drive
6. Locate and select the folder “Limbic_Bits_Fusion”. Ensure you select this folder not individual files or a subfolder
7. Choose the starting position for the patch import. Example: If positions from 5000 onward are empty, selecting “5000” will start the patch import at position 5000.
8. If the unit asks to import the samples, please confirm.
9. Done!
